- Insert the values to the three available fields: Product Name, Manufacturer, and Item Type. Product Line tab.
- The values are inserted into the TableView and the database when pressing the “Add product” button. Product line tab.

Kristy's Production Line

Product Line Produce Production Log

Product Name

Manufacturer

Item type

Existing Products

Product Name	Manufacturer	Item Type
PIXEL 3	GOOGLE	AUDIO_MOBILE

- The product description is inserted into the ListView. Produce tab.

5. Choose a quantity from the combobox. Produce tab.

The screenshot shows the 'Produce' tab of the 'Kristy's Production Line' application. The interface has a blue background. At the top, there are three tabs: 'Product Line', 'Produce' (which is active), and 'Production Log'. On the left side, there are two labels: 'Choose Product' and 'Choose Quantity'. To the right of 'Choose Product' is a white text area containing the text: 'Name: PIXEL 3', 'Manufacturer: GOOGLE', and 'Type: AUDIO_MOBILE'. Below 'Choose Quantity' is a combobox showing the number '3'. At the bottom center, there is a green button labeled 'Record Production'.

6. The product description of the produced product appears inside the Text Area. Production Log tab.

The screenshot shows the 'Production Log' tab of the 'Kristy's Production Line' application. The interface has a blue background. At the top, there are three tabs: 'Product Line', 'Produce', and 'Production Log' (which is active). In the center of the screen, there is a white text area containing three lines of text: 'Name: PIXEL 3 Manufacturer:GOOGLE Item Typ', 'Name: PIXEL 3 Manufacturer:GOOGLE Item Typ', and 'Name: PIXEL 3 Manufacturer:GOOGLE Item Typ'. The text area has a scrollbar at the bottom.

6. Overview of the database after pressing the "Add product button".
